RADAH TECHNOLOGIES PRODUCTS & SERVICES

RADAR SPEED GOVERNORS

Radar Speed Governors conform to the applicable road safety standards in Kenya. We are approved and certified by NTSA, KEBS, and the Ministry of Transport. Key functionalities
 of our tamper-proof speed limiters are;

1. Speed Limiting at a pre-set speed.
2. Data Recording.
3. Live Data Transmission.
4. Data storage.
5. Violation alerts.
6. Historical playbacks.

Additional Benefits are Premium quality and proven reliability, ease of installation, and user-friendly interface.

We have a wide network of dealers spread across the country, and our speed limiters come with an extended manufacturer's warranty of 24 months.

We offer online support round the clock with a dedicated team on standby for emergencies.

RADAH FUEL MANAGEMENT SYSTEMS

Our fuel Management system is anchored on the highly efficient Radah Fuel Monitor Model 2.0; and an equally efficient software platform that ensures you always stay in control of your consumption. Our systems are compatible with all vehicles including:

- Heavy machinery and construction equipment
- Trucks and buses
- Vans
- Smaller-sized vehicles and motorcycles
- Fixed installations including generators and manufacturing plants.

We have an excellent record in managing fuel siphoning and consumption patterns. Our dynamic dashboards are customizable to reflect client needs for reporting on consumption, efficiency, historical data, and many other parameters.

RADAH VEHICLE AND ASSET TRACKING SERVICES

Radar Tracking Systems report on vehicle and asset location via GPS signal to the client 24hrs a day. Our technicians will discreetly install the trackers to avoid detection and possible disconnection.

Our system is customizable for use on a computer or mobile phone (both Android and ios) with readily available applications.

Historical playbacks and remote vehicle operation are some of the many standard attributes of our system.

RADAH SECURITY SYSTEMS AND INSTALLATIONS

We offer a wide range of solutions that are tailor-made for each individual client's security needs. We have partnered with reputable hardware manufacturers to ensure that we only offer high-quality equipment for use with our

Our installations are scalable in scope to different settings, and our engineers will be happy to advice on available solutions.

RADAH TRANSIT CARGO MONITORING AND SECURITY

Transit Cargo monitoring and security services are tailored to meet individual client's needs, ranging from alerts, real-time location details, and data playback. We offer seals and tamper-proof locks for valuable cargo. Please engage us to find out which security and tracking solutions work best for you.

RADAH SANITATION

Our sanitation services range from manual and automated hand sanitizers, fumigators, Temperature scanners, and sanitary waste disposal services. We have tailor-made solutions for all setups including shopping malls, schools and institutions, offices, public service vehicles, hotels, and manufacturing plants.
